OPT for better bone health . . . .

Dr. Sharon Hausman-Conen is a member of the National Osteoporosis Foundation and board-certified family physician. She holds both a masters in cell biology and medical degree from Harvard Medical School and has a special interest in the area of osteoporosis and bone health.

---

Our office is located at the corner of 183 and Balcones Woods (coming north on the access road) in the Ironstone Bank building, just past Seton Northwest Hospital.

---

Copies of your osteoporosis consult will be sent to your referring and primary care physician with a detailed explanation of your evaluation and treatment plan.

To schedule your consult please call (512) 231-1901. Please let the receptionist know you are being referred by another physician for an osteoporosis evaluation and we will accommodate you in a priority fashion.

Please bring this referral form and copies of any recent blood work and bone densities to your consultation.
